The bigger picture.
A clearer perspective.

Understand the forces moving US and European equity markets. A proposed weekly briefing for new investors and finance students.

ONE THOUGHTFUL READ. EVERY WEEK.

01 ## Context

Understand the economic story behind the headline.

02 ## Reasoning

Follow the evidence, the mechanism and the alternative explanations.

03 ## Learning

Build market knowledge one practical concept at a time.

START WITH A SAMPLE

One cut. Two economies.
No automatic equity signal.

Historical teaching pilot / 14 June 2024 cutoff

Read in two depths.

Start with the overview. Stay for the reasoning.

The weekly overview

The important developments, with the noise removed.

The main story

One macro theme explained through its possible effects on equities.

US and Europe

Compare the evidence while respecting different markets and data definitions.

A concept and a watchlist

Learn a useful idea, then see what evidence could change the interpretation.

Proposed membership

EUR 8 / month

A price hypothesis for the full weekly briefing. The sample is free to inspect. Reader interviews and a limited pilot will test the offer before any paid launch.

Source-led. Beginner-readable.

Facts link to original sources. Interpretation and uncertainty are labelled. AI assistance supports production; final editorial judgement remains with the publisher.
